

VOTT-4:

```
Anaconda Prompt (Anaconda3)

(base) C:\Users\DELL>cd D:\yolo_structure-master\1_Image_Annotation
(base) C:\Users\DELL>cd D:\yolo_structure-master\1_Image_Annotation
(base) C:\Users\DELL>cd yolo_structure-master\1_Image_Annotation
The system cannot find the path specified.
(base) C:\Users\DELL>cd D:;
The system cannot find the path specified.
(base) C:\Users\DELL>cd D:
D:\yolo_structure-master\1_Image_Annotation
(base) C:\Users\DELL>D:
(base) D:\yolo_structure-master\1_Image_Annotation>python Convert_to_YOLO_format.py
(base) D:\yolo_structure-master\1_Image_Annotation>python Convert_to_YOLO_format.py -h
usage: Convert_to_YOLO_format.py [-h] [--VoTT_Folder VOTT_FOLDER]
                                [--VoTT_csv VOTT_CSV]
                                [--YOLO_filename YOLO_FILENAME]

optional arguments:
  -h, --help            show this help message and exit
  --VoTT_Folder VOTT_FOLDER
                        Absolute path to the exported files from the image
                        tagging step with VoTT. Default is D:\yolo_structure-
                        master\Data\Source_Images\Training_Images\vott-csv-
                        export
```
